\$ 1,550,000

This idyllic property offers magnificent panoramic views encompassing the bluffs & valleys of its heavily wooded 132 acres! Located adjacent to the House on the Rock, 5 miles from Taliesin (famed architect Frank Lloyd Wright's residence), the property became a popular picnic spot for Frank Lloyd Wright, staff & friends. The sandstone bluff (Borglum Rock) named after Wright's friend, Gutzon Borglum the creator of Mt. Rushmore, also served as the inspiration for Wright's philosophy of "organic architecture" the blending of nature with materials, orientation & other aspects of a residence. This property is a captivating purchase option!
